Go to the “Browse” - “Bidding Projects” page. From there, click the “Pending” tab next to the default “Projects” tab.

					#	BID DATE	PROJECT NAME (Click Here To Sort)
--	--	--	--	--	---	----------	-----------------------------------

This will take you to a list of “Pending” projects very similar to the “Browse” list. You can filter the list by entering a word into the “Project Name” or “Location” fields. Or you can filter down to local projects. Click the “Filter” button after entering your criteria and “Reset” to go back to the full list.

VCEC 4	09/17/2010	10/26/10 BD: BOONVILLE FOREST FIRE STATION - REPLACE FACILITY	BOONVILLE

The layout for the “Pending” projects detail page is the same as for Plans On File. The two key differences are that the bid date is shown in the title and in the “Description” (not in the “Bid Date” or “Bid Time” fields) and any pre-bid information is in the “Description”. Pending projects are also not assigned a “BIN #” until the Exchange receives project docs and converts the listing to an active project.

Important to note: For now, new “Pending” entries are not included in the OPR Email ‘notifications’ of new projects, though they are included on the “VCE Daily Update”. Also, when a pending entry is converted to active, it will not show up on the OPR ‘new projects’ Email then because it is not technically new to the Online Planroom. It *will* show up on the VCE Daily Update. If you don’t subscribe to the Daily Update, be sure to use “Save Project” for pending listings so you see, on your “My Desk”, when they go active and docs are added.
